SUBJECT INDEX VOL. 61 (1992)

Acetaminophen, 255
Acrylamide, 199
Activation, 305
Activity monitor, 265
Adriamycin, 49
Aflatoxin B_1, 159, 89, 233
Aflatoxin B_1–DNA binding, 233
Ah receptor, 141
Al ingestion, 225
Alkaline phosphatase, 225
Anthraquinone, 9
Antimitogenic activity, 185
Arylhydrocarbon receptor, 125
Atropine, 175, 111
Axonal transport, 199
Axonopathy, 199

Benzene, 311
Bile acids, 291, 39
Bile flow, 39
Blood pressure, 111, 243
Butyl benzyl phthalate, 1
BzAO, 305

Cadmium, 205
Caloric restriction, 233
Cancer, 67
Carbon monoxide, 243
Carbon tetrachloride, 213
Cardiotoxicity, 49
Catalase, 75
Cd absorption, 225
Cholestasis, 255, 39
Cleft palate, 1
Coexposure, 311
Collagen, 81
Cyanide, 243
Cytochrome P-450, 213

Denitrification, 149
Diene conjugates, 213
γ-Diketones, 199
Dimethyl sulfoxide, 275
1,1-Dimethylhydrazine, 27
Dioxin, 125
Dioxins, 141
Disulfiram, 75
DNA strand breakage, 233
Drug metabolism, 125
Dyes, 81

ECG parameters, 175
Ethanol, 89
Ethionine, 57
Extracellular matrix, 81

Fibroblasts, 81

Genotoxicity, 149
Glucose, 99, 243
Glutathione, 283
Glutathione disulfide, 283
Glutathione peroxidase, 49

Heart rate, 111
Hepatic glutathione, 255
Hepatocyte culture, 275
Hepatotoxicity, 89, 291, 9
Hexachlorobenzene, 167
Hexachlorocyclohexane, 265
Hydrogen peroxide, 283
Hydroxy radicals, 9
8-Hydroxy-deoxyguanosine, 9
Hypothermia, 243

Immunotoxicity, 27
In vitro, 199
Induction of cytochrome P-450, 275
Interaction, 159
Interleukin-2 receptor, 27
Intracellular calcium, 27, 255
Ischemia–reperfusion, 283
Isolated rat hepatocytes, 159

Lactate, 243
Lipid peroxidation, 213, 291, 225, 9
Lipid peroxide, 49
Lithocholic acid, 39, 255

Liver, 149, 39
Luteoskyrin, 9

Membrane potential, 27
Metallothionein, 225
Meth-A tumor cell, 75
Methyl isobutyl ketone, 167, 39
Minerals, 99
Mouse, 67
MPTP analogue, 305
Mycotoxin, 9

Necrosis, 89
Neoplasm, 67
Neurologic index, 243
Neurotoxicology, 199
Nitrite, 149
2-Nitropropane, 149

Oxidative stress, 283
Oxytetracycline, 159

Papillomatosis, 21
Parkinson's disease, 305
Peripheral neuropathy, 199
Phenobarbital, 213
Phosphorylation, 57
Phthalic acid ester, 1
Plasticizer, 1
Polychlorocycloalkane insecticides, 265
Porphyria, 167
Potassium, 205
Propane 2-nitronate, 149
Propranolol, 111, 175
Protein kinase C, 57

Rat, 233, 57
Rat bladder, 21
Rat liver, 283
Renal dysfunction, 205
Renal handling, 205
Rhodamine B, 81
Rhodamines, 81
Risk assessment, 141
Rodent, 67

Scorpion venom, 99, 111
Seasonal variation, 49
Serum enzymes, 99
Sodium, 205
Spontaneous, 67

T47D cells, 185
2,3,7,8-TCDD, 185
Teratogenicity, 1
2,3,7,8-Tetrachlorodibenzo-*p*-dioxin, 141
Thyroid hormones, 125
Toluene, 311
Toxicity, 99
t,t-Muconic acid, 311
Tumor, 67
[^{35}S]TBPS binding, 265

Uracil, 21
Urolithiasis, 21

Venom, 175
